

## Track list and build order

# PACKET RUN

Bureau  
Moeilijke Dingen

This page contains all tracks in Packet Run.

Note that the numbering consists of two numbers. The T-prefix denotes the terminal number for the track (1-12, counterclockwise, starting at desk), whereas the S-prefix denotes the slot (1-4, left to right as seen from front-side of terminal). Sending side slots consist of the holes at the top of a terminal, whereas receiving side slots are on the bottom rear section of there terminal.

Each track contains multiple track segments (1-4, counted from sending side). All track segments are labeled, where the track segment is denoted with a P-prefix.

Lastly, tracks are sorted into a build order category (1-3). This signifies which tracks should be installed first (1), middle (2) and last (3). During teardown, the build order should be reversed (3 first, 2 middle, 1 last).

Sending side	Receiving side	Nº segments	Build order Nº
T1-S1	T2-S1	2	1
T2-S1	T12-S1	2	3
T2-S2	T6-S2	3	2
T3-S1	T11-S3	3	3
T3-S2	T8-S1	2	1
T3-S3	T6-S1	2	2
T4-S1	T11-S2	2	3
T4-S2	T7-S1	3	3
T4-S3	T5-S1	2	3
T5-S1	T2-S4	3	3
T5-S2	T4-S3	2	2
T6-S1	T3-S3	3	1
T6-S2	T2-S2	3	2
T6-S3	T10-S3	3	2
T7-S1	T4-S2	3	2
T7-S2	T10-S2	3	2
T8-S1	T3-S2	3	1
T8-S2	T11-S1	3	2
T9-S1	T2-S3	2	1
T9-S2	T10-S1	2	3
T10-S1	T9-S1	2	3

T10-S2	T7-S2	3	3
T10-S3	T6-S3	4	3
T11-S1	T8-S2	2	2
T11-S2	T4-S1	3	3
T11-S3	T3-S1	3	3
